

ImmuHerbs

INTRODUCED 2001

What Is It?

ImmuHerbs is a standardized herbal formula consisting of arabinogalactan, elderberry, olive leaf, maitake mushroom and garlic extracts.

Features Include

- Arabinogalactan, supporting immune system cells responsible for the body's first line of defense. This fermentable fiber contains the active polysaccharide also found in echinacea, as well as promotes healthy production of lactobacillus and bifidobacteria in the colon.*
- Elderberry, providing a rich source of flavonoids and quercetin for antioxidant and immune support.*
- Olive leaf, also providing a rich source of flavonoids, such as rutin, luteolin and hesperidin. These compounds act with olive leaf's main constituent, the glucoside oleuropein, to maintain a healthy intestinal environment and beneficial microflora.*
- Maitake mushroom, containing 3% of the unique polysaccharide beta-d-glucan for healthy macrophage activity.*
- Garlic, providing an odor-controlled aged extract, is standardized to contain the stable sulfur compound scordinin and other sulfur compounds such as diallyl sulphide and diallyl disulphide, contributing to healthy immune system defense.*

Uses For ImmuHerbs

Immune Support: ImmuHerbs offers a concentrated blend of immune-specific herbs providing flavonoids, unique polysaccharides, glucosides, and sulfur compounds for wide-range immune support.*

What Is The Source?

Arabinogalactan extract is derived from *Larix spp.* (North American larch tree). Elderberry extract is derived from *Sambucus nigra* fruit. Olive leaf extract is derived from *Olea europaea L.* and standardized to contain min. 20% oleuropein. Maitake mushroom extract is derived from *Grifola frondosa*. Odorless garlic is derived from *Allium sativum L.* and standardized to contain 2,000 mcg/g allicin.

Recommendations

Pure Encapsulations recommends 3-6 capsules per day, in divided doses, between meals.

Are There Any Potential Side Effects Or Precautions?

If pregnant or lactating, consult your physician before taking this product. Immune support formulas may be contraindicated for individuals with an autoimmune illness. Sensitive individuals may experience gastrointestinal irritation or upset.

Are There Any Potential Drug Interactions?

This formula may potentially react with certain blood thinning and other medications. Consult your physician for more information.

ImmuHerbs

three vegetable capsules contain	  00
arabinogalactan (<i>Larix spp.</i>) extract.....	500 mg.
elderberry	500 mg.
olive leaf (<i>Olea europaea l</i>) extract.....	500 mg.
(standardized to contain min. 20% oleuropein)	
maitake mushroom (<i>Grifola frondosa</i>) extract.....	250 mg.
garlic powder (odor-controlled).....	250 mg.
(standardized to contain 2,000 mcg/g allicin yield)	
vitamin C (as ascorbyl palmitate)	30 mg.
3-6 capsules per day, in divided doses, between meals.
